COUNCIL ACTION 2022A-0690

The Minneapolis City Council hereby adopts the Business License Operating Conditions for Imperial Parking, 519 ½ Cedar Ave S, negotiated between the City of Minneapolis and Imperial Parking US LLC, allowing the licensee to retain the Parking Class A License LIC74238, subject to adherence with the conditions contained therein:

1. Imperial Parking US, LLC agrees to close the lot, at 519 Cedar Avenue South, to all vehicle traffic after 10 p.m. each night. Barriers shall be installed to stop all vehicles entering the lot after 10 p.m.
2. Imperial Parking US, LLC can allow vehicles with monthly contracted parking to access to the lot 24 hours per day with a hangtag indicating their right to park on the lot.
3. Imperial Parking US, LLC agrees to tow all vehicles, without hangtags, after 10 p.m. each night. The parking lot shall install signage to indicate the parking lot closes at 10:00 p.m. and that any unauthorized vehicle will be towed after this time.
4. Imperial Parking US, LLC shall install surveillance cameras that cover the lot, and entrance and exit of vehicles on the lot. This shall be done within 30 days of signing this agreement. Until this condition can be met, Imperial Parking US, LLC shall conduct three times security checks between the hours of 10 p.m. and 2 a.m. and shall remove all unauthorized vehicles from the premises.

On behalf of the Business, Inspections, Housing & Zoning Committee, Goodman offered Ordinance 2022-041 amending Title 20, Chapters 527 Planning Unit Development; 530 Site Plan Review; 541 Off-Street Parking, Loading, and Mobility; and 552 Built Form Overlay Districts of the Minneapolis Code of Ordinances relating to Zoning Code, amending regulations related to electric vehicle charging infrastructure in new development to implement policies of Minneapolis 2040.

The following is the complete text of the unpublished summarized ordinance.

ORDINANCE 2022-041
By Johnson
Intro & 1st Reading: 3/24/2022
Ref to: BIHZ
2nd Reading: 10/6/2022

Amending Title 20 of the Minneapolis Code of Ordinances relating to Zoning Code.

The City Council of the City of Minneapolis do ordain as follows:

Section 1. That Table 527-2 Amenities contained in Section 527.120 of Chapter 527, Planned Unit Development, be amended to read as follows:

Table 527-2 Amenities

<i>Points</i>	<i>Amenity</i>	<i>Standards</i>
10	Active liner uses as part of a parking garage	Inclusion of housing, office, or other active uses around the perimeter of all floors of a parking garage that face a public street, sidewalk, or pathway. In any district where liner uses are already required on the first floor, points shall only be awarded for liner uses on all other floors above the first where parking is located. False or display windows shall not qualify.
10	Environmental sustainability— Ecological function	<ul style="list-style-type: none"> a. Installation of an extensive, intensive, semi-intensive, modular or integrated green roof system that covers a minimum of fifty (50) percent of the total roof area proposed for the development. b. Not less than fifty (50) percent of the site not occupied by buildings including all required landscaped yards shall be landscaped per the standards in Chapter 530. c. Native species plantings shall be prioritized on the landscaping plan, including plantings that support pollinators.
10	Historic preservation	<ul style="list-style-type: none"> a. The structure shall be a locally designated historic structure or shall be determined to be eligible to be locally designated as a historic structure, as provided in Chapter 599 of the Minneapolis Code of Ordinances, Heritage Preservation. b. The historic structure, if undesignated, shall be subject to the same restrictions that are applicable to locally designated historic structures and the recommendations contained in The Secretary of the Interior's Standards for Rehabilitation. c. The historic structure shall be rehabilitated pursuant to the applicable guidelines of the heritage preservation ordinance and the recommendations contained in The Secretary of the Interior's Standards for Rehabilitation, if necessary.
10	Environmental sustainability— Climate resiliency	Any performance standard (LEED, PHIUS, EGC, etc.) that achieves the Minnesota Sustainable Building 2030 (SB 2030) 2010-2014 Energy Standard, a sixty (60) percent energy/carbon reduction from the 2003 Average Building Baseline. The evaluation shall be submitted by a certified architect. Building utility energy and water information shall be submitted annually as part of the Minneapolis Energy Benchmarking program.

10	Public right-of-way dedication	Dedication of land and construction of a public road, alley, pathway, or greenway that is part of an approved City plan or that restores the city's traditional grid subject to the approval of the applicable agencies or departments. Right-of-way improvements should be designed in accordance with Chapter 598, Land Subdivision Regulations. Points shall not be awarded for the reconstruction or relocation of an alley to facilitate an alley vacation.
10	Underground parking	All parking shall be located underground. Where the grade of the site slopes significantly, all parking shall be enclosed in a floor level of the building that does not meet the definition of a story. Further, exterior parking garage walls adjacent to the public street shall not extend more than three (3) feet above the adjacent grade measured from the finished floor of the first level. <u>Electric vehicle charging infrastructure must be provided in accordance with section 541.420, Specific electric vehicle charging infrastructure standards.</u>
5	Conservation of the built environment	Significant renovation, rehabilitation and adaptive reuse of an existing building(s), rather than demolition.
5	Garden(s) or on-site food production	Permanent and viable growing space and/or facilities such as a greenhouse or a garden conservatory at a minimum of sixty (60) square feet per dwelling unit to a maximum required area of five thousand (5,000) square feet, which provide fencing, watering systems, soil, secured storage space for tools, solar access, and pedestrian access as applicable. The facility shall be designed to be architecturally compatible with the development and to minimize the visibility of mechanical equipment.
5	Renewable energy	Not less than forty (40) percent of electricity usage shall be derived from renewable energy sources through on-site generation and/or renewable energy credits (RECs).
5	Outdoor open space	Contiguous ground level outdoor open space that is related to and proportional with the bulk of the building and landscaped with trees and shrubs. Rain gardens, where appropriate, are encouraged. Walkways and pathways shall be surfaced with pervious pavers, pervious concrete, decorative pavers, stamped concrete, colored concrete, brick or other decorative and durable materials. A minimum of thirty (30) percent of the site not occupied by buildings shall be landscaped outdoor open space. A minimum of fifty (50) percent of the provided open space shall be contiguous. The open space must be immediately accessible from the principal structure. Areas should be designed for winter use and relate to the built form with consideration given to elements such as providing shelter from wind, utilizing seasonally appropriate materials, maximizing access to sunlight and providing for snow and ice removal.
5	Outdoor children's play area	An active, outdoor children's play area with a minimum of fifty (50) square feet for each unit containing three (3) or more bedrooms but not less than five hundred (500) square feet of play area to a maximum required area of five thousand (5,000) square feet. The play area shall be secure, shall be separated from parking and maneuvering areas, and shall be designed to facilitate adult supervision. The play area shall include play equipment, installed to the manufacturer's specifications, or natural features suitable for

		children in both preschool and elementary school. Play equipment shall not be located in a required yard and not more than twenty-five (25) percent of the required square footage of the play area may be located in a required yard. Play areas should be designed for winter use and relate to the built form with consideration given to elements such as providing shelter from wind, utilizing seasonally appropriate materials, maximizing access to sunlight and providing for snow and ice removal.
5	Plaza	Plazas shall have a minimum area equivalent to ten (10) percent of the site not occupied by buildings, but not less than two thousand (2,000) square feet and shall comply with all provisions in Chapter 535, Regulations of General Applicability. Plazas for commercial or mixed-use development shall be open to the public during daylight hours.
3	Art feature	Provision of art that shall strive to promote quality design, enhance a sense of place, contribute to a sense of vitality, show value for artist and artistic processes, and use resources wisely. The art shall be maintained in good order for the life of the principal structure. The art shall be located where it is highly visible to the public. If located indoors, such space shall be clearly visible and easily accessible from adjacent sidewalks or streets. The art shall be valued at not less than one-fourth (.25) of one (1) percent of the capital cost of the principal structure.
3	Decorative or pervious surface for on-site parking and loading areas, drives, driveways and walkways.	Provide decorative pavers, pervious pavers, stamped concrete, colored concrete, pervious concrete, brick or other decorative or durable materials for a minimum of seventy-five (75) percent of surface parking and/or loading areas, drives aisles, driveways and walkways that comply with the Americans with Disabilities Act accessibility requirements.
3	Energy efficiency	Utilization of energy design assistance programs or commissioning to ensure that building systems are designed to operate efficiently and exceed the Minnesota State Energy Code by at least thirty (30) percent of the annual energy costs. The developer must submit documentation to the City including a letter signed by the owner or a licensed design professional, that shows the project will comply with this standard.
3	Living wall system	Provide a living wall system on at least one (1) building elevation. The living wall shall be composed of panels that total a minimum of sixty (60) percent of the wall area on the building elevation, or five hundred (500) square feet, whichever is greater. Window area is included in the calculation of the wall area, but in no case shall the living wall cover windows. Not less than twenty (20) percent of the plantings shall provide greenery year round.
3	Natural features	Site planning that preserves significant natural features or restores ecological functions of a previously damaged natural environment.

3	Pedestrian improvements	A site and building design that allows for exceptional and accessible pedestrian and/or bicycle access through and/or around a site that exceeds the requirements of Chapter 530, Site Plan Review. The improvements shall use a combination of landscaping, decorative materials, access control and lighting to create a safe, clear and aesthetically pleasing access through and/or around the site that complies with the Americans with Disabilities Act accessibility requirements.
3	Reflective Roof	Utilize roofing materials for seventy-five (75) percent or more of the total roof surface having a Solar Reflectance Index (SRI) equal to or greater than the values as required by the US Green Building Council (USGBC) for low-sloped and steep-sloped roofs.
3	Shared bicycles and e-vehicle chargers	Public access to shared bicycles available for short-term use. Applies to mixed-use and non-residential uses only. A minimum of ten (10) shared bicycles and four (4) e-vehicle chargers per one (1) commercial use must be provided to qualify as an amenity. Bicycle parking spaces and racks shall be located in an area that is convenient and visible from the principal entrance of the building.
3	Shared vehicles	Access to a shared passenger automobile available for short-term use. For residential uses, a minimum of one (1) car per one hundred (100) dwelling units is required.
1	Decorative fencing	Install high-quality decorative metal fencing where visible from the public street, public sidewalk or public pathway. The point for decorative fencing may be obtained when it is included as part of another amenity if it is also provided in other areas on the site. In no case shall chain-link fencing be considered decorative fencing.
1	Enhanced exterior lighting	Lighting plan that highlights significant areas of the site or architectural features of the building(s), subject to the standards of Chapter 535, Regulations of General Applicability.
1	Enhanced landscaping	A landscaping plan of exceptional design that has a variety of native tree, shrub, and plant types that provide seasonal interest and that exceed the requirements of Chapter 530, Site Plan Review. The landscaped areas shall have a resource efficient irrigation system. The landscaping plan shall be prepared by a licensed landscape architect.
1	Enhanced stormwater management	Provide capacity for infiltrating stormwater generated onsite with artful rain garden design, or subterranean stormwater collection and filtration system, that serves as a visible and/or visually appealing amenity. Rain garden designs shall be visually compatible with the form and function of the space and shall include for long-term maintenance of the design. The design shall conform to requirements of the stormwater management plan approved by public works.
1	Heated drives or sidewalks	Heated drives or sidewalks that are designed to provide snow and ice free surfaces.
1	Pet Exercise Area	A pet exercise area shall have a minimum dimension of twelve (12) feet by sixty (60) feet. It shall be enclosed with decorative fencing, include lighting in compliance with Chapter 535, Regulations of General Applicability and provide accommodations for proper disposal of animal waste. The pet exercise area shall not be located in a required yard.

1	Recycling storage area	Provide an easily accessible area that serves the entire building and is dedicated to the collection and storage of non-hazardous materials for recycling, including but not limited to paper, corrugated cardboard, glass, plastics and metals. The recycling storage area shall be located entirely below grade or entirely enclosed within the building.
1	Tree islands	The inclusion of additional or larger tree islands in the interior of parking lots that exceed the requirements of Chapter 530, Site Plan Review. Larger tree islands shall have a minimum width of ten (10) feet in any direction and shall provide shrubs, plant materials, and/or rain garden plantings in addition to the trees.
1	Water feature	A water feature, including but not limited to a reflecting pond, a children’s play feature or a drinking fountain shall be located where it is highly visible to and useable by the public.
As determined by CUP.	Amenities proposed by the applicant or others	The city planning commission may consider other amenities not listed in Table 527-2, Amenities, that are proportionally related to the alternative requested. The commission may assign one (1), three (3), five (5), or ten (10) points based on the proportionality.
As determined by CUP.	Amenities that significantly exceed standards	The city planning commission may consider up to five (5) additional points to the point value listed for any amenity in Table 527-2, Amenities, where the commission finds the proposed amenity substantially exceeds the standards required in Table 527-2, Amenities, for the amenity.

Section 2. That Table 530-2 Standards for Single-, Two-, and Three-Family Dwellings contained in Section 530.280 of Chapter 530, Site Plan Review, be amended to read as follows:

Table 530-2 Standards for Single-, Two-, and Three-Family Dwellings

Points	Design Standard
6	The exterior building materials are masonry, brick, stone, stucco, wood, cement-based siding, and/or glass
4	The height of the structure is within one-half (½) story of the predominant height of residential buildings within one hundred (100) feet of the site
4	The total diameter of trees retained or planted equals not less than three (3) inches per one thousand (1,000) square feet of total lot area, or fraction thereof. The diameter of each tree shall be at least two and one-half (2.5) inches. Tree diameter shall be measured at four and one-half (4.5) feet above grade.
3	Not less than twenty (20) percent of the walls on each floor that face a public street, not including walls on half stories, are windows
3	Not less than one (1) off-street parking space per dwelling unit is provided in an enclosed structure that is detached from the principal structure and is located entirely in the rear forty (40) feet or twenty (20) percent of the lot, whichever is greater, and the accessory structure is not less than twenty (20) feet from any habitable portion of the principal structure
3	The structure includes a basement as defined by the building code
2	Not less than ten (10) percent of the walls on each floor that face a rear or interior side lot line, not including walls on half stories, are windows

<u>1</u>	<u>Not less than one (1) Level 2 or greater electric vehicle charging station, as defined in Chapter 541, Off-Street Parking, Loading and Mobility, is provided serving an off-street parking space.</u>
1	The development qualifies for and, following construction, provides proof of receipt of a City of Minneapolis Stormwater Quality Credit
1	The structure includes an open, covered front porch of at least seventy (70) square feet that is not enclosed with windows, screens, or walls, provided there is at least one (1) existing open front porch within one hundred (100) feet of the site. The porch may include guardrails not more than three (3) feet in height and not more than fifty (50) percent opaque. The finish of the porch shall match the finish of the dwelling or the trim on the dwelling. For the purpose of this section, raw or unfinished lumber shall not be permitted on an open front porch.

Section 3. That Section 541.420 contained in Chapter 541, Off-Street Parking, Loading, and Mobility, be amended to read as follows:

541.420. Specific electric vehicle charging infrastructure requirements standards. (a) *In general.* To comply with the standard for the Underground Parking amenity in Table 527-2, the standard for the Enclosed Parking premium in Table 552-12, and the standard for the Enclosed Parking premium in Table 552-13, Principal principal uses shall provide electric vehicle charging stations, electric vehicle flexible spaces, and electric vehicle capable spaces for provided parking in the appropriate quantity and at the charging level identified in Table 541-4, Required Standards for Electric Vehicle Charging Infrastructure Incentives. A property owner, business owner, or property manager may determine whether parking spaces with electric vehicle charging stations are reserved for electric vehicles or are available for use by all vehicles.

(b) *Mixed use development.* For mixed use development or where accessory parking facilities are shared by residential and non-residential uses, the zoning administrator shall determine the required level of electric vehicle charging infrastructure to comply with the intent of Table 541-4, Required Standards for Electric Vehicle Charging Infrastructure Incentives.

(c) *Phased implementation.* ~~The effective date of Article IV, Electric Vehicle Charging, of this chapter, shall be January 1, 2022. In addition, until January 1, 2024, a development subject to a requirement to provide electric vehicle charging stations may, as an alternative, provide electric vehicle readiness to not less than seventy five (75) percent of the parking spaces provided in the development. A development submitting its land use application after January 1, 2024, is subject to full compliance with the requirements of Table 541-4, Required Electric Vehicle Charging Infrastructure.~~ Surface Parking. Newly established off-street surface parking areas providing twenty (20) or more spaces and existing off-street surface parking areas that add twenty (20) or more spaces shall supply not less than five (5) percent of newly established parking spaces with electric vehicle charging stations capable of L2 charging or greater. This requirement shall apply to both principal and accessory surface parking areas.

Table 541-4 Required Electric Vehicle Charging Infrastructure

Use	Electric Vehicle Charging Stations	Electric Vehicle Ready Spaces	Notes
Any building or use with up to 3 residential units	None	Minimum of 1 L2-level space if parking is provided. All remaining enclosed accessory parking spaces shall support L1 charging.	Congregate living uses shall be exempt.
Any building or use with 4 to 9 residential units	None	Minimum of 1 L2-level space if parking is provided. All remaining enclosed accessory parking spaces shall support L1 charging.	Congregate living uses shall be exempt.
Any building or use with 10 residential units or more	10% of provided parking spaces capable of L2 charging. Installation of electric vehicle charging stations is not required when fewer than 10 parking spaces are provided.	Additional 20% of provided spaces at L2 charging level.	Adequate electrical service is required to allow for simultaneous charging of 20% of provided parking spaces at an L2 level. Congregate living uses shall be exempt except that congregate living uses with 20 or more parking spaces shall be subject to the same electric vehicle infrastructure standard as a non-residential use with 20 or more parking spaces.
Hotel	10% of provided parking spaces capable of L2 charging.	Additional 20% of provided spaces at L2 charging level.	Adequate electrical service is required to allow for simultaneous charging of 20% of provided parking spaces at an L2 level.
Office	10% of provided parking spaces capable of L2 charging.	Additional 20% of provided spaces at L2 charging level.	Adequate electrical service is required to allow for simultaneous charging of 20% of provided parking spaces at an L2 level.

All other non-residential uses where 20 off street parking spaces or more are provided	5% of provided parking spaces capable of L2 charging.	Additional 5% of provided spaces at L2 charging level.

Table 541-4 Standards for Electric Vehicle Charging Incentives

<u>Use</u>	<u>Electric Vehicle Charging Stations</u>	<u>Electric Vehicle Ready Spaces</u>	<u>Notes</u>
All Uses providing ten (10) or more enclosed parking spaces	5% of provided parking spaces capable of L2 charging.	Additional 10% of provided spaces at L2 charging level. For each charging station provided in excess of the minimum standard, the number of electric vehicle ready spaces may be reduced by an equivalent amount.	Adequate electrical service is required to allow for simultaneous charging of 10% of provided parking spaces at an L2 level.

Section 4. That Table 552-12 Floor Area Ratio Premiums Authorized in Interior 3*, Corridor 3, Corridor 4, Corridor 6, Transit 10, Transit 15, Transit 20, and Production contained in Section 552.630 of Chapter 552, Built Form Overlay Districts, be amended to read as follows:

Table 552-12 Floor Area Ratio Premiums Authorized in Interior 3*, Corridor 3, Corridor 4, Corridor 6, Transit 10, Transit 15, Transit 20, and Production

Premium	Standards
Affordable housing	<p>a. The development shall comply with the city's inclusionary housing requirements by providing affordable units on-site rather than utilizing one (1) of the compliance alternatives.</p> <p>b. The development must include at least twenty (20) dwelling units to qualify for the affordable housing bonus. In developments with fewer than fifty (50) units, all inclusionary housing standards that apply to developments with fifty (50) or more units shall apply to the development.</p> <p>c. The premium value shall be double when the affordable units are on-site and affordable at or below thirty (30) percent of the area median income, without income averaging.</p>
Child care center	<p>The development includes a child care center that meets the following standards:</p> <ol style="list-style-type: none"> 1) Not less than two thousand (2,000) square feet of enclosed space. 2) The use shall comply with the specific development standards for child care centers in Chapter 536, Specific Development standards.
Construction type	<p>a. Not less than sixty (60) percent of the floor area of the development on the zoning lot is within a structure or structures classified by the building code as one (1) the following construction types: Type IA, Type IB, Type IIA, or Type IV.</p>

Enclosed parking	<p>a. All off-street parking on the zoning lot, other than temporary drop-off and pick-up spaces, shall be located within the building, entirely below grade, or in a parking garage of at least two (2) levels.</p> <p>b. All drive aisles that facilitate maneuvering into and out of parking spaces shall be located within the structure. Exception: In the Interior 3 District, drive aisles and vehicle maneuvering areas may be located outdoors.</p> <p>c. <u>Electric vehicle charging infrastructure must be provided in accordance with section 541.420, Specific electric vehicle charging infrastructure standards.</u></p>
Environmental sustainability— Climate resiliency	<p>The project shall achieve at least one (1) of the following standards:</p> <p>a. Any performance standard (LEED, PHIUS, EGC, etc.) that achieves the Minnesota Sustainable Building 2030 (SB 2030) 2010-2014 Energy Standard, a sixty (60) percent energy/carbon reduction from the 2003 Average Building Baseline. The evaluation shall be submitted by a certified architect. Building utility energy and water information shall be submitted annually as part of the Minneapolis Energy Benchmarking program.</p> <p>b. Not less than forty (40) percent of electricity usage shall be derived from renewable energy sources through on-site generation and/or renewable energy credits (RECs).</p>
Environmental sustainability— Ecological function	<p>The development shall include a green roof and landscaping elements that meet the following standards:</p> <p>a. The COMMITTEE OF THE WHOLE submitted the following report:

On behalf of the Committee of the Whole, Osman offered Resolution 2022R-254 calling on the United States to lead the global efforts to relieve famine and food insecurity in the Horn of Africa and applauding the delivery of aid and nourishment to the region.

The following is the complete text of the unpublished summarized resolution.

RESOLUTION 2022R-254

By Osman

Calling on the United States to lead the global efforts to relieve famine and food insecurity in the Horn of Africa and applauding the delivery of aid and nourishment to the region.

Whereas, the Greater Horn of Africa is a region with over 290 million people, covering over 2 million square miles in East Africa; and

Whereas, Minnesota is home to the largest East African diaspora population in the United States and the world; and

Whereas, the World Bank estimates 66.4 million people are experiencing food insecurity or famine in the Horn of Africa; and

Whereas, in Somalia and Ethiopia the World Food Program estimates that half of the population is hungry and faces the threat of famine; and

Whereas, conflict, climate change and macroeconomic challenges have exasperated the condition resulting in rising costs and pushing millions to starvation; and

Whereas, widespread armed conflict throughout East Africa and around the globe creates and deepens food insecurity; and

Whereas, conflict induced hunger acutely impacts vulnerable populations such as women and children, persons with disabilities, refugees, and internally displaced children; and

Whereas, according to the UN over half a million children in Ethiopia and Somalia are at risk of dying; and

Whereas, the real risk of losing millions of lives could be preventable by helping the region build capacity to prepare to respond to the increasingly inevitable change in climate and ending conflicts across the region; and

Whereas, the tragedy unfolding in East Africa, the continued conflict across the region deeply effects the East African Community in Minnesota;

Now, Therefore, Be It Resolved by The City Council of The City of Minneapolis:

That the United States should lead the global efforts to relieve famine and food insecurity in the Horn of Africa, and that opportunities to deliver aid and nourishment to the region by Minnesota and Minnesotans be applauded and recognized for their lifesaving value.

The PUBLIC WORKS & INFRASTRUCTURE Committee submitted the following report:

On behalf of the Public Works & Infrastructure Committee, Koski offered Resolution 2022R-256 adopting the assessments, levying the assessments, and adopting the assessment roll for sanitary sewer service availability charges (SAC) on the list of properties as on file in the City Engineer's Special Assessment Office.

The following is the complete text of the unpublished summarized resolution.

RESOLUTION 2022R-256

By Johnson

Adopting the assessments, levying the assessments, and adopting the assessment roll for sanitary sewer service availability charges (SAC) on the list of properties as on file in the City Engineer's Special Assessment Office.

Whereas, a public hearing was held on September 29, 2022, in accordance with Minnesota Statutes, Section 429.101, by authority of Minnesota Statutes, Chapter 473, to consider the proposed assessments as shown on the proposed assessment roll on file in the City Engineer's Special Assessment Office, and to consider all written and oral objections and statements regarding this matter;

Now, Therefore, Be It Resolved by The City Council of The City of Minneapolis:

That the proposed assessments against the affected properties on the 2022 SAC Fees list, updated September 29, 2022, as on file in the City Engineer’s Special Assessment Office in the total amount of \$69,607.90 as shown on the proposed assessment roll on file in the City Engineer’s Special Assessment Office, is hereby adopted and levied.

Be It Further Resolved that the assessment in the following list be collected in five (5) successive equal annual principal installments beginning on the 2023 real estate tax statements, with interest charged at the rate of 3.2%:

PID	Amount
33 029 24 44 0010	\$9,920.81

Be It Further Resolved that all other assessments be collected in one (1) principal installment on the 2023 real estate tax statements, with interest charged at the rate of 2.3%.

Be It Further Resolved that the assessment roll, as prepared by the Department of Public Works, be and hereby are adopted, and that certified copies of said assessment roll be transmitted to the Hennepin County Auditor.

On roll call, the result was:

Ayes: Payne, Wonsley, Rainville, Vetaw, Ellison, Osman, Goodman, Jenkins, Chavez, Chughtai, Koski, Palmisano (12)

Noes: (0)

Absent: Johnson (1)

Adopted.

On behalf of the Public Works & Infrastructure Committee, Koski offered Resolution 2022R-257 adopting the assessments, levying the assessments, and adopting the assessment rolls for water service line and sewer lateral repairs or replacements on the lists of properties as on file in the City Engineer’s Special Assessment Office.

The following is the complete text of the unpublished summarized resolution.

RESOLUTION 2022R-257

By Johnson

Adopting the assessments, levying the assessments, and adopting the assessment rolls for water service line and sewer lateral repairs or replacements on the lists of properties as on file in the City Engineer’s Special Assessment Office.

Whereas, a public hearing was held on September 29, 2022, in accordance with Minneapolis Code of Ordinances, Sections 509.610 and 511.380, to consider the proposed assessments as shown on the proposed assessment rolls on file in the City Engineer’s Special Assessment Office and to consider all written and oral objections and statements regarding this matter;

Now, Therefore, Be It Resolved by The City Council of The City of Minneapolis:

That the proposed assessments against the affected properties on the water service line repair list, dated September 9, 2022, in the total amount of \$1,103,390, as shown on the proposed assessment roll on file in the City Engineer’s Special Assessment Office, is hereby adopted and levied.

RESOLUTIONS

Palmisano moved to adopt Resolution 2022R-258 honoring Jon Wertjes for his service and dedication to the City of Minneapolis.

The following is the complete text of the unpublished summarized resolution.

RESOLUTION 2022R-258

**By: Johnson, Payne, Wonsley, Rainville, Vetaw, Ellison,
Osman, Goodman, Jenkins, Chavez, Chughtai, Koski, and Palmisano**

Honoring Jon Wertjes for his service and dedication to the City of Minneapolis.

Whereas, Jon Wertjes began his employment with the City of Minneapolis as an Engineering Aide on June 16, 1998, was promoted to Engineer III in 2000, Principal Professional Engineer in 2003, and has led the division now known as Traffic and Parking Services (TPS) for the last 18 years; and

Whereas, Mr. Wertjes is an engaged member of his Minneapolis community, was responsible for the greening of City Hall Room 203, and always led with the public's best interest as his highest priority; and

Whereas, Mr. Wertjes has expertise in all elements of traffic and parking management, an eye for detail, indecipherable handwriting, a passion for public service, and an understanding of the importance of the division's work in the lives of the residents, businesses, and visitors of Minneapolis; and

Whereas, Mr. Wertjes oversaw the operation of 800 signalized intersections, 9,400 parking meters, 16 parking ramps, 100,000 street signs, 48,000 street lights, and the conversion of 30% of the legacy street light system to LED fixtures; and

Whereas, in the last 18 years, Mr. Wertjes led the division through the building of the Traffic Management Center and greatly expanded the City's fiber communications network for traffic infrastructure, created the Safety group, started and updated lane use fees, and oversaw analysis of Travel Demand Management Plans for new developments; and

Whereas, Mr. Wertjes led the division through innovative and nationally recognized Marquette Avenue/2nd Avenue Bus Lanes, red bus lanes including: Hennepin Avenue, Chicago Avenue, 7th Street, and 3rd Avenue South as well as other transit initiatives include design and operational support of the Green Line Light Rail Transit and an overhaul of the signal operations of the Blue Line; support for Bus Rapid Transit with 100 intersections of Transit Signal Priority and project level support with transit queue jumps; and other creative transit enhancement strategies; and

Whereas, Mr. Wertjes supported major construction projects and addressed construction and neighborhood impacts from the Crosstown Project to the 35W@94 Project, as well as the pandemic response with food pick up zones and civil unrest response with multiple areas addressed with neighborhood traffic management strategies; and

Whereas, Mr. Wertjes expertly led the division through traffic and parking plans for opening large venues including Huntington Bank Stadium, Target Field, and US Bank Stadium as well as multiple events including the Republican National Convention, Super Bowl, Men’s and Women’s Final Four, MLB All Star Game, X Games, and NHL Winter Classic; and

Whereas, in the parking realm of TPS, Mr. Wertjes oversaw two separate parking meter pay station installations, change over from single to multi-space metering system, mobile parking meter phone app introduction, construction of seven off-street parking facilities, sale of nine off-street parking facilities, construction of the new impound lot building, installation of over 100 on-street Variable Message Signs to enhance wayfinding, and facilitating the Prince Mural on Ramp A; and

Whereas, Mr. Wertjes oversaw the creation of one of the first bike share systems in North America which has seen over 4 million rides as well as car share programs Car2Go and EV Carshare, and supervised the creation of a mobility team which has overseen over 2 million shared scooter rides in the city, the launch of the Evie electric vehicle car share and charging network, and the piloting of new concepts such as Mobility Hubs – in the process making the City an international leader in mobility and transportation technology; and

Whereas, Mr. Wertjes was an active member of the American Public Works Association, an early supporter and policy group member of the National Association of City Transportation Officials, and a member of Institute of Transportation Engineers, International Parking and Mobility Institute, Transportation for America, Open Mobility Foundation, Intelligent Transportation Systems of America & Minnesota, and Community Air Mobility Initiative; and

Whereas, Mr. Wertjes was regularly sought out for his insightful, astute, and creative advice and is a thought leader on innovative management of the right of way balancing complex and competing interests; and

Whereas, Mr. Wertjes led the TPS Division with a focus on collaboration, trust, and respect of the 149 division employees and will be deeply missed by the City's elected officials and fellow members of the Public Works Department as a leader, Professional Engineer, mentor, colleague, and friend;

Now, Therefore, Be It Resolved by The City Council of The City of Minneapolis:

That the Mayor and City Council, in recognition of the outstanding leadership and significant and positive impact he has had during his 24 years of service, do hereby present this resolution to Jon Wertjes together with their most sincere thanks and appreciation and wish him much happiness and fulfillment in retirement with his family.
