City of Minneapolis,

Please consider this a letter of support from the Victory Neighborhood Association for Justice Built Communities acquiring the current city owned properties at 2139 and 2147 44<sup>th</sup> Avenue North, Minneapolis, MN. Jimmy Loyd of Justice Built Communities has been in on- going discussions with The Victory Neighborhood Association's Executive Director and presented to our Board of Directors on March 24<sup>th</sup>, 2021 regarding proposed development rights of these sites. We understand the development process is long, and support ensuring Victory and greater Camden area residents are involved in the creation of the development. Justice Built Communities has committed to intentional community engagement during this process as it directly impacts our neighborhood and Northside residents.
